**RESPONSE TO THE REQUIREMENT
FOR ELECTION/RESTRICTION OF SPECIES**

Dear Sir:

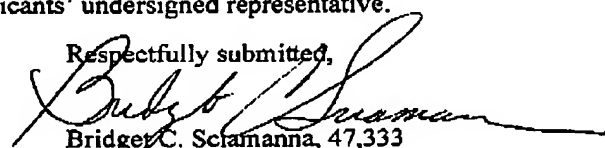

In response to the Requirement for Election/Restriction of Species in the Office Action of April 20, 2006, Applicants hereby traverse the restriction and ask for reconsideration based on the following comments.

MPEP section 803, sets forth the requirements that an application may properly be required to be restricted to one of two or more claimed inventions only if they are able to support separate patents and they are either independent or distinct; and there would be a serious burden on the Examiner if restriction was not required.

Claims 1-36 are all related and drawn to a novel cap assembly. No serious burden would be placed on the Examiner by allowing all of the claims to remain in this application, as both groups of claims are related to a cap assembly which allows vapor passage between the container and an external atmosphere. Thus, due to the relationship of the claims, a search directed to the Group I claims would result in finding art pertinent to the Group II claims. Accordingly, Applicants believe that restriction in this application would not be proper.

In the event that the Examiner will not withdraw the requirement in consideration of the above stated remarks, Applicants hereby elect Group I, claims 1-21, and 27-36. If any further action on the part of Applicants is deemed necessary, the Examiner should not hesitate to contact Applicants' undersigned representative.

Respectfully submitted,

Bridget C. Sciamanna, 47,333
